

CRS' GLOBAL MALARIA PROGRAMS

In 2016, CRS implemented a \$163 million portfolio of 17 programs worldwide, reaching 51 million beneficiaries in 14 countries.

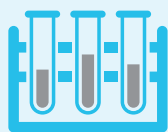

WHAT WE DO

PREVENT & SUPPORT

23+ million insecticide-treated bed nets distributed by CRS through health ministries in The Gambia, Ghana, Guinea, Madagascar, Niger, and Senegal

TEST, DIAGNOSE & TREAT

2,439 community health workers trained by the Ministry of Health in Guinea, with oversight from CRS, in correct testing, diagnosis, and treatment of malaria.

COLLECT DATA USING MOBILE APPS

60 percent of CRS' malaria programs use mobile technology to improve speed and accuracy of data collection, enable simple analysis and use of complex data, or increase adherence to malaria treatment guidelines.

MOVE TOWARD ELIMINATION

CRS has supported malaria programming in The Gambia over the last 13 years, which has contributed to a **95% reduction** in malaria prevalence from 4% in 2010 to 0.2% in 2014. The Gambia is now a step closer to eliminating malaria.

CRS has supported national malaria control programs in scaling up seasonal malaria chemoprevention in Guinea, Mali, Niger and The Gambia. In 2016, **11 million doses** were distributed, reaching **2.8 million children**. Malaria cases were reduced **by 49%** in Mali.
