Vision Statement for the Steering Committee: To educate leadership in the principles of Catholic social teaching for integration within and among the four pillars of formation.

- Flows from the Seminary's Mission Statement and *PPF*
- Makes CST as an outward manifestation of Communion Ecclesiology more integrated throughout the Pillars of Formation
- Across the Pillars, working smarter, not harder – not adding more work or new programs
- CRS gives us new resources and focus to what we are already doing – collaborates on existing efforts
- Committee lays the groundwork for the pastoral formation symposium in 2017 by integrating C.S.T. within each pillar. The committee prepares to develop and integrate structure between the four pillars that can flow out of work begun at the symposium.
