CRS Vision 2030 Strategy

Outcome Indicators and Targets

CRS Goals	Sector	Indicators	2022 Target	2026 Target	2030 Target
All People Live in Just and Peaceful Societies	<i>Social Cohesion</i>	Number and percent of community members participating in collective actions	500,000	1.5 million	2.25 million
	<i>Gender</i>	Number of women and girls with increased decision making	15,000	50,000	100,000
	<i>Governance</i>	Number of community members reporting that service providers are accountable and responsive to them	600,000	1,200,000	2,300,000
All People Survive and Thrive in the Face of Disasters	<i>Shelter</i>	Number of people with access to shelter that meets agreed technical and quality standards	1.5 million	4.5 million	10 million*
	<i>Market-based support</i>	U.S. dollar value of cash and vouchers distributed	\$300 million	\$650 million	\$1 billion
	<i>Protection</i>	Number of children accessing safe and supportive environment	50,000	300,000	600,000
	<i>Resilience**</i>	Number of households reporting more resilience to the impact of disasters	1.5 million	6 million	10 million
All People Achieve Dignified and Resilient Livelihoods in Flourishing Landscapes	<i>Poverty</i>	Number of people who have been brought out of poverty	400,000	1 million	1.5 million
	<i>Productivity</i>	Average change in farmers' agricultural productivity	1 million farmers reached per year, with 50% increase in productivity (2022/26/30)		
	<i>Land restoration</i>	Hectares of land under restoration through improved practices	350,000	800,000	1.6 million*
	<i>Savings</i>	Total U.S. dollar value mobilized through saving and borrowing services	\$200 million	\$665 million	\$1.4 billion
	<i>Savings</i>	Number of people benefiting from saving and borrowing services	7 million	13 million	20 million
All Children Reach Their Full Health and Development Potential in Safe and Nurturing Families	<i>Malaria cases averted</i>	Estimated malaria cases averted among children under 5	5 million	14 million	17 million*
	<i>Malaria lives saved</i>	Estimated lives saved by malaria interventions of children under 5	40,000	100,000	125,000*
	<i>HIV</i>	Number of HIV-positive children and adolescents who are on HIV treatment	50,000	275,000	300,000*
	<i>Nutrition</i>	Number of children aged 6-23 months who receive minimum acceptable diet	175,000	325,000	475,000
	<i>Water***</i>	Number of people gaining access to basic drinking water services	4 million	12 million	20 million
	<i>Family care</i>	Number of children living in safe and nurturing families	200,000	500,000	700,000*
	<i>Education</i>	Number of learners in pre-primary, primary and secondary schools	900,000	1.5 million	2.25 million
All Youth Are Empowered to Thrive	<i>Skill Development</i>	Number of youth who have completed training programs	200,000	900,000	2 million*
	<i>Employment</i>	Number of youth who obtain employment or self-employment	100,000	450,000	1 million*

*Shelter, Land restoration, Lives saved, Malaria cases averted, HIV, Family care, Youth skill development, and Youth employment targets include both direct and influenced results. Shelter and land restoration targets have specific targets for direct and influenced results. Land: 2026: 500,000 direct + 300,000 influenced. 2030: 750,000 direct + 850,000 influenced. Shelter: 2022: 370,000 with direct CRS funding + 1.13 million through influence. 2026: 900,000 direct + 3.6 million influenced. 2030: 1.5 million direct + 8.5 million influenced.

**The resilience indicator contributes to Goal Areas 2 and 3.

*** The water indicator contributes to Goal Areas 2 and 4.

GOAL AREA
Justice & Peace

Global Challenge

84 MILLION

people are forcibly displaced by violence, insecurity, and the effects of climate change.

CRS 2030 Target

2.25 MILLION

people participate in collective actions.

SDG Target

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.

STRATEGY OUTCOME INDICATOR:

Number of community members participating in collective actions

Results

FY21-FY22 RESULTS TO DATE:

1,251,777 people

NUMBER OF PEOPLE

The Faces Behind the Numbers

In Niger, the StaR project helps families and communities—with a focus on youth and women—who have been displaced by the crisis across the Lake Chad Basin region. In the project, refugees, host communities, and people who have returned home benefit from improved community infrastructure, support for agriculture and livelihoods, and activities that help to build social cohesion. Wa Jorom Daouda, 42, and her family participated in Cash for Work activities in her village of Djetkoram Manda, where her son earned nearly \$65 each month over a period of three months. With the new source of income, the family was able to purchase a sheep for fattening, that they could later sell at a profit.

**GOAL AREA
Justice
& Peace**

Global Challenge

OVER 2 BILLION

people have inequitable access to public services.

CRS 2030 Target

2.3 MILLION

report that service providers are accountable and responsive to them.

SDG Target

Promote peaceful and inclusive societies for sustainable development, provide access to justice for all and build effective, accountable and inclusive institutions at all levels.

STRATEGY OUTCOME INDICATOR:

Number of community members who report that service providers are accountable and responsive to them.

Results

FY22 RESULTS TO DATE:

NUMBER OF
COMMUNITY
MEMBERS

568,782
community members

The Faces Behind the Numbers

A woman gives her weekly savings with the money counters during the weekly King Crabs SILC group, an internal lending and savings program within the community. The group is part of the CRS ACT (Adaptive Community Transformation) project, supported by USAID OFDA that helps communities in Northern Samar to prepare for and reduce the impact of disasters like typhoons and tropical storms. Mud crab fishers who are SILC members prefer to save money through their SILC group because they can choose the amount of their weekly savings deposit. When they borrow money from the group, the interest rate is low and any earned interest is returned to the group via an annual cash-out.

GOAL AREA
Justice
& Peace

STRATEGY OUTCOME INDICATOR:

Number of women and girls in union with increased decision making

Global Challenge

1 in 3

women and girls who married between 18-24 cannot make large household purchases without their husband or partner.

CRS 2030 Target

100,000

women and girls increase decision making.

SDG Target

Achieve gender equality and empower all women and girls.

Results

NUMBER OF WOMEN AND GIRLS

FY21-FY22 RESULTS TO DATE:

6,218 women & girls

The Faces Behind the Numbers

Selena Claribel Escalante Orantes, 26, Raindrop’s vegetation cover monitor, loads trees at the plant nursery of this startup she helped to found. Raindrop promotes water and soil conservation practices for ASA (Water Smart Agriculture), in Arabá de Romero, Ahuachapán, El Salvador. The nursery’s trees are part of the 3,000 trees that young people are planting in Ahuachapán’s San Lorenzo forest to support ecological restoration of the forest. “Raindrop has helped so much,” said Orantes, a single mother of two children. “We try to make an impact on other people. In the communities, we try to generate a positive impact on the environment. We try to raise awareness so that they see how important it is to plant a tree.”

GOAL AREA
**Humanitarian
Response**

Global Challenge

1.6 BILLION

people live in multidimensional poverty.

CRS 2030 Target

\$1 BILLION

in cash/vouchers distributed.

SDG Target

Implement nationally appropriate social protection systems and measures for all, and by 2030 achieve substantial coverage of the poor and the vulnerable.

STRATEGY OUTCOME INDICATOR:

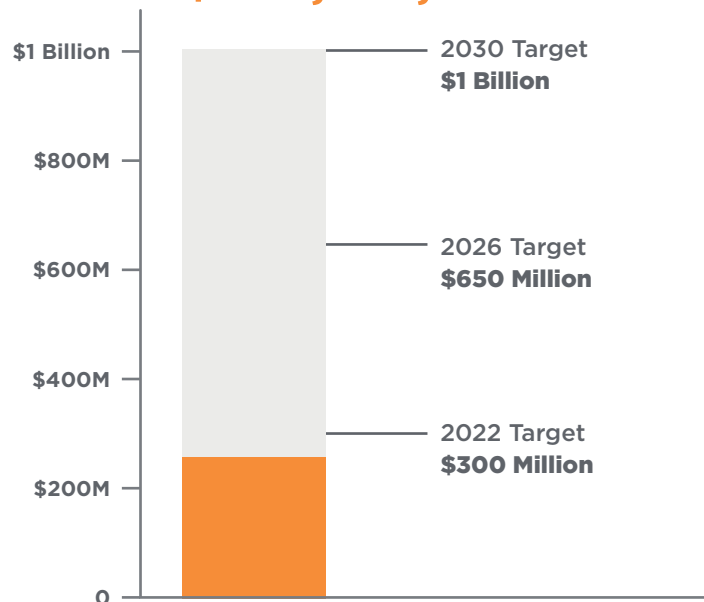

U.S. dollar value of cash and vouchers distributed

Results

FY20-FY22 RESULTS TO DATE:

\$262,347,870

U.S. DOLLAR VALUE

The Faces Behind the Numbers

Aliya Jeudi, 64, makes her living by selling the harvest of her garden. But when a 7.2 magnitude earthquake struck southern Haiti in late 2021, her harvest, and therefore her income, suffered. Along with the devastation to human life and the country's infrastructure, this disaster came on the heels of back-to-back crises, including an ongoing battle with COVID-19, political and economic instability, increasing hunger, and gang violence. Following the earthquake, CRS advanced its cash transfer planning to deliver a cycle of assistance earlier than initially planned to ensure individuals like Aliya Jeudi and their families are able to meet their immediate needs.

GOAL AREA
Humanitarian
Response

STRATEGY OUTCOME INDICATOR:

Number of people with access to safe and dignified shelters and homes

Global Challenge

1.6 BILLION
people live in inadequate conditions worldwide.

CRS 2030 Target

10 MILLION
people with access to safe and dignified shelters and homes.

SDG Target

By 2030, ensure access for all to adequate, safe, affordable housing, basic services and upgrade slums.

Results

FY20-FY22 RESULTS TO DATE:

1,902,134 people

NUMBER OF PEOPLE

The Faces Behind the Numbers

CRS supported Caritas Moldova as it welcomed thousands of Ukrainian refugees in its centers in Chisinau, the capital of Moldova. The shelters offered comprehensive support, including a safe, dignified place to rest, showers, hot meals, counseling and guidance on social services, recreational activities for children, and privacy for families to collect themselves and make decisions about what to do next.

GOAL AREA
Humanitarian
Response

Global Challenge

91 MILLION
people were affected by
natural disasters in 2019.

CRS 2030 Target

10 MILLION
households report increased
resilience against the impact
of disasters.

SDG Target

Make cities and human
settlements inclusive, safe,
resilient and sustainable.
By 2030, significantly reduce
the number of deaths and
the number of people directly
affected by natural disasters.

STRATEGY OUTCOME INDICATOR:

**Number of households
reporting greater resilience
against the impact of disasters**

Results

FY21-FY22 RESULTS TO DATE:

641,919 households

NUMBER OF
HOUSEHOLDS

The Faces Behind the Numbers

Rafiatou Abdoulahi, 18, earned a sewing certificate and works as an intern in a local community center. She can create bedsheets and many items of clothing for sale. She even takes special orders from people. “I didn’t have even one penny (100 CFA) before, but now I am able to buy small items for myself such as hijabs and beauty accessories with the money I make,” she said. CRS supports youth socio-professional integration through a two-year Community Conflict Management (CCM) initiative that aims to support certified young people starting their own business, in the field of their choice, by giving them equipment and tools for their installation.

GOAL AREA
Humanitarian
Response

Global Challenge

34 MILLION

children living through conflict and disaster lack access to child protection services.

CRS 2030 Target

600,000

children protected during emergencies.

SDG Target

End abuse, exploitation, trafficking and all forms of violence against and torture of children.

STRATEGY OUTCOME INDICATOR:

Number of children accessing a safe and supportive environment

Results

FY21-FY22 RESULTS TO DATE:

354,715 children

NUMBER OF CHILDREN

The Faces Behind the Numbers

Abril Zaragoza (shown here with her daughter Blanca Sofia Sandoval, 9) is the social worker at the Casa YMCA shelter in Tijuana Mexico, which focuses on receiving unaccompanied minors. Teenagers often choose to migrate after experiencing gang persecution, physical danger and the loss of family members due to violence. Shelters like Casa YMCA provide a safe haven for young people, where they can be cared for by a multidisciplinary team that includes a psychologist, a lawyer and an administrator. The staff offer workshops that help teenagers understand their rights as people on the move. They are also given warm water to bathe, shoes, clothing and food. “Every day we review case by case, and we are aware of their needs,” says Abril. “We try to be a family for them that gives them that emotional support of affection and respect.”

GOAL AREA
Livelihoods
& Landscapes

STRATEGY OUTCOME INDICATOR:

Average change in agricultural productivity

Global Challenge

690 MILLION

people are currently hungry.

CRS 2030 Target

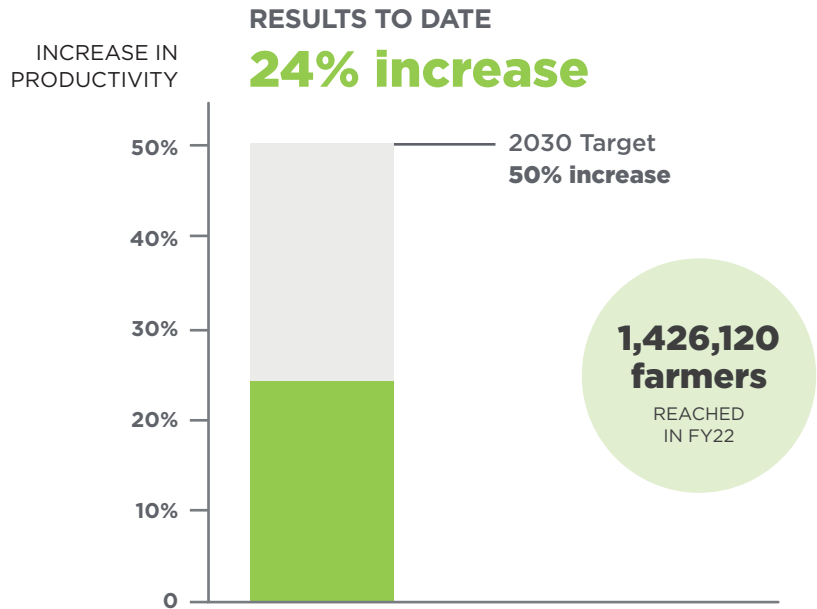

50% INCREASE

in productivity.

SDG Target

By 2030, double the agricultural productivity and incomes of small-scale food producers, in particular women, indigenous peoples, family farmers, pastoralists and fishers.

Results

The Faces Behind the Numbers

Samuel Kawewo and his wife, Joyce Mirembe, began growing vanilla eight years ago through the CRS Vines project in their village, Kasambya, in the Kayunga district. The harvest yield from cultivating that half acre has educated their children, built their house, and led to further land purchases. Vines is a five-year (2020-2025) USDA-funded Food for Progress project designed to make Uganda the world's next leading supplier of high-quality vanilla, increasing exports from 66 Metric Tonnes (MT) to 367MT per year by 2025. The program aims to directly transform the lives of 16,200 farmers, create 16,176 new jobs, and strengthen 786 Micro, Small and Medium Enterprises (MSMEs), as well as 31 processing companies that support the market system.

STRATEGY OUTCOME INDICATOR:

Land under restoration through improved practices

Global Challenge

12 MILLION

hectares of fertile land is degraded each year.

CRS 2030 Target

1.6 MILLION

hectares of land under restoration.

SDG Target

By 2030, combat desertification, restore degraded land and soil, including land affected by desertification, drought and floods, and strive to achieve a land degradation-neutral world.

Results

FY20-FY22 RESULTS TO DATE:

897,189 hectares

HECTARES OF LAND

The Faces Behind the Numbers

Farmer **Ciro Pineda Membreño**, 53, who lives in the Los Pineda hamlet, in Chilanga, Morazán, El Salvador, shows mother cacao trees that are planted to use as living barriers and stubble on his land where he has corn planted as the main crop. Don **Ciro** also implements contour lines and 4R fertilization. "It is necessary to plant the barriers first, then sow the corn, and then start with the sowing of the canavalia (cover crop). We do a pruning so that it can sprout. The weed is left on the ground; the leaf decomposes and serves as organic fertilizer to the earth. Because if we don't do this [the land] will deteriorate and no longer be useful for agriculture. Before we ruined the soil because we burned the earth and stubble. Now we have learned that we should no longer burn the stubble because if we burn it, the soil is deteriorated. Now we have learned better techniques that with these barriers, with the canavalia, we protect the soil."

Global Challenge

1.7 BILLION
people around the world
do not have access to
financial services.

CRS 2030 Target

\$1.4 BILLION
mobilized through saving
and borrowing services.

SDG Target

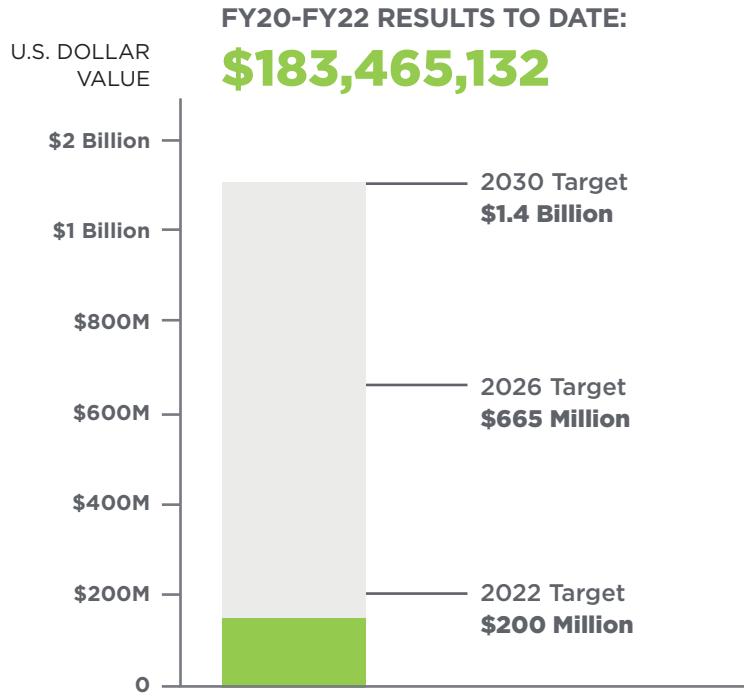

By 2030, ensure that
all men and women, in
particular the poor and the
vulnerable, have equal rights
to economic resources,
appropriate new technology
and financial services,
including microfinance.

STRATEGY OUTCOME INDICATOR:

**Total U.S. dollar value
mobilized through saving
and borrowing services**

Results

The Faces Behind the Numbers

Benjamin Lewa, age 33, and Katherine Kotchaba, age 24, both members of AFDDIG (Association of Women for the Sustainable Development and Integrity in Galada), in the Far North of Cameroon’s Mokolo region, shake hands. The group, which helps promote and implement development activities in local communities, was founded in 2017. In July 2021, AFDDIG members also formed a Savings and Internal Lending Community (SILC), following training by CRS/Caritas. The 30 members (including five men) now meet once a week to contribute money to the savings and lending, and solidarity fund pots. “I love this group because it’s filled with humanism and spirit,” Benjamin says. “It’s a sharing of experiences. It’s a joy to see others succeed and improve their lives, and to give encouragement and hope; that encourages me as well.” Katherine says: “This group has changed so much in my life. Before we didn’t know how to save money or have access to borrow it. Personally, for me, this has helped me grow my business and pay brother’s school fees. I was the only girl growing up in my family so it’s nice to have older women in the group to guide and look up to.”

NUMBER OF PEOPLE

The Faces Behind the Numbers

Lucie Massal, a 53-year-old widowed mother of seven, is the treasurer of the 'Louka Nougbi' ('Place of Charity') Savings and Internal Lending Community (SILC) group, in Koudoul, Chad, which was formed as part of CRS' SILC programming. Created in 2021, this 29-member group is now in its second cycle. They meet weekly to contribute to the savings and solidarities funds. Lucie, who describes herself as a "strong businesswoman," started off selling small piles of rice and peanuts on the side of the road. Eventually, she purchased a table to put them on at the market. Four years ago, she had saved enough to buy a "real" shop at the market. Now, using loans from SILC, she is buying more stock to sell and is saving money to buy land to plant a garden for her family. She says: "SILC groups provide a valuable service to the community. It helps us save money and it helps with social cohesion; you are united when you are in a SILC group. It gives us access to credit. It is so difficult especially as a woman to have access to credit. But here I can take loans and build my business. I am so proud to be such a strong, independent businesswoman—look at me! My dreams came true! I thank God."

Health & Development

STRATEGY OUTCOME INDICATOR:

Number of children and adolescents living with HIV who received treatment

Global Challenge

2.8 MILLION

children and adolescents are currently living with HIV.

CRS 2030 Target

300,000

children and adolescents living with HIV who received treatment.

SDG Target

By 2030, end the epidemics of AIDS, tuberculosis, malaria and neglected tropical diseases and combat hepatitis, water-borne diseases and other communicable diseases.

Results

FY20-FY22 RESULTS TO DATE:

266,069 children and adolescents

NUMBER OF HIV-POSITIVE CHILDREN & ADOLESCENTS

The Faces Behind the Numbers

Today AFSU is among the leading organisations supporting those living with HIV," says Virginie Zangue. She should know. Since 2009, Zangue has been president of the Association des Frères et Soeurs Unies (AFSU), a pioneering association created in 1994 in Cameroon for people living with HIV. In 2015, AFSU became an implementing partner of KIDSS (Key Interventions to Develop Systems and Services for Orphans and Vulnerable Children), a program organized by CRS and its partner, the National Episcopal Conference of Cameroon, as well as 26 other local organizations. Currently providing targeted services to more than 60,000 people impacted by HIV/AIDS across 66 health districts in Cameroon, KIDSS uses a comprehensive and coordinated approach to help Cameroon to achieve HIV epidemic control and reach the UNAIDS 95-95-95 objectives by supporting factors that reduce the negative impact of HIV and vulnerability to HIV transmission.

GOAL AREA
Health & Development

STRATEGY OUTCOME INDICATOR:

Number of children aged 6-23 months who receive minimum acceptable diet

Global Challenge

156 MILLION

children suffer from chronic malnutrition or stunting.

CRS 2030 Target

475,000

children receive minimum acceptable diet.

SDG Target

By 2030, end all forms of malnutrition, including achieving, by 2025, the internationally agreed targets on stunting and wasting in children under 5 years of age, and address the nutritional needs of adolescent girls, pregnant and lactating women and older persons.

Results

FY20-FY22 RESULTS TO DATE:

167,130 children

NUMBER OF CHILDREN

The Faces Behind the Numbers

Marcos Chanchavac, 16 months old, enjoys a meal with his mother, Lilian Tzún. Lilian and her husband, Raúl Chanchavac, are able to give their children more nutritious food after participating in the USAID-funded project, “SEGAMIL” (which stands for Food Security Focused on the First Thousand Days). The family received seed capital to build a greenhouse and technical training to improve the quality of their produce. The family also participated in the “Our Harvest” Local and Regional Food Aid Procurement project (LRP), which is part of a large McGovern-Dole Food for Education program funded by the United States Department of Agriculture (USDA). CRS trains farmers like Raúl and Lilian and links them to buyers as part of Guatemala’s National School Feeding Law, which requires schools to buy at least 50% of their food from local producers. Supporting local farmers not only builds a strong school meals program, it also bolsters local economies, communities and families.

5,042,759 people

NUMBER OF PEOPLE

The Faces Behind the Numbers

A clean water source pump, like this one installed by CRS, can solve myriad challenges for a community. Access to a clean close water source saves time for women, like Henriette Kalubi, 17, who previously had to walk to a nearby river, where the water was dirty, to collect water for cooking, drinking bathing and washing clothes. The community also suffered from many water-borne diseases, such as cholera, and intestinal problems, including diarrhea. Today, thanks to the pump, the community says they – especially the children – are in much better health. “I come here every day,” says Henriette. “I fill at least two bidons each morning. We use this water to cook and drink and wash dishes. It is very clean. It is very good water—much better than the water that comes from the river.”

The Faces Behind the Numbers

Catholic Relief Services (CRS) India and Changing the Way We Care (CTWWC) India highlight the story of 28-year-old parent, P. Sruti and Swati, her four-year-old daughter. Like so many families around the world who have been affected by the COVID-19 pandemic, P. Sruti relied on her resilience to keep her family together after a tragic loss. CTWWC India is focused on preventing the separation of children from their families and reducing reliance on Child Care Institutions (CCIs) for the care of children. India has the largest number of children living in residential care in the world. In total, over 9,500 CCIs, house nearly 400,000 children.
