

CRS' GLOBAL MALARIA PROGRAMS

In 2017, CRS implemented a \$315 million portfolio of **18 programs worldwide**, reaching **105 million beneficiaries** in 14 countries.

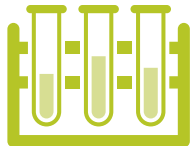

WHAT WE DO

PREVENT & SUPPORT

45+ million

insecticide-treated bed nets distributed by CRS through health ministries in The Gambia, Ghana, Guinea, Madagascar, Niger, Nigeria, and Senegal

TEST, DIAGNOSE, & TREAT

2,439 community

health workers trained by the Ministry of Health in Guinea, with oversight from CRS, in correct testing, diagnosis, and treatment of malaria.

COLLECT DATA USING MOBILE APPS

60 percent of CRS' malaria

programs use mobile technology to improve speed and accuracy of data collection, enable simple analysis and use of complex data, or increase adherence to malaria treatment guidelines.

MOVE TOWARD ELIMINATION

CRS has supported malaria programming in The Gambia over the last 13 years, which has contributed to a **95% reduction** in malaria prevalence from 4% in 2010 to 0.2% in 2014. The Gambia is now a step closer to eliminating malaria.
