

CRS Clubs: Action Sheets

Thank you for participating in your school's CRS Club and joining the movement of students in Catholic high schools across the country to address global poverty.

What are Action Sheets?

CRS Monthly Action Sheets are a skill-building tool used by all CRS Clubs and Chapters for monthly action. We invite all club members to engage in the indicated actions every month. Club advisors will receive the Monthly Action Sheets with the National Chapter Call invitation each month (also available on the CRS Clubs website at *crs.org/CRSClubs*). The Monthly Action Sheet should be distributed to each club member so that everyone can participate in the monthly action. Continue reading for more information on the *Monthly Action Sheets* and how your CRS Club can utilize them to act together with others across the United States.

Purpose of the Monthly Action Sheet

The Monthly Action Sheet is a skill-building tool that helps focus individual and collective advocacy and promotes consistent communication with elected officials to support building relationships with their offices. Club members, along with chapters across the country, take the same action each month in addition to campus-wide activities (e.g. meetings with members of Congress or their staff; community giving events; speaking engagements; tabling events; and other community mobilization and outreach events).

Monthly Action Sheets:

- Leverage the impact of our collective advocacy by providing a timely, coordinated advocacy action for club and chapter members throughout the country.
- Deepen our understanding of an issue and support our ability to speak and write more powerfully to elected officials, the media, community leaders and our friends.
- Help dissolve the sense of powerlessness that many Americans experience and build a pathway to develop skills to be engaged in the political process.
- Provide a concrete step for us to live out the principles of Catholic social teaching, build a more just society and live lives of holiness amidst the challenges of modern society.

What Makes Up an Action Sheet?

A brief centering prayer for CRS Clubs and Chapters across the country.

One of the tools we will use periodically is called a "laser talk," a short, scripted talk about the legislation on which Clubs and Chapters advocate.

Guidance to complete the monthly action.

Action Sheet OCTOBER 2020

God of Creation, we pray that we may be good stewards of all you have given us and prophetic advocates for our brothers and sisters who suffer from hunger and malnutrition.

CRS faith.

KILL-BUILDING ACTIO

We commemorate World Food Day this month by holding our sisters and brothers who experience hunger and mainutrition in prayer and continuing our efforts to advance the Global Child Thrive Act, 5. 2715, knowing that its passage would help millions of children facing advarsity oversasa. Our Sill-building Action Sheet action this month its own tries a personal email to both of our senators urging them to sign onto a letter being initiated by Sens. Blunt and Coons, lead sponsor SG 2715, to the decision makers on the National Defense Authorization Act (NDAI) urging that they restin the Castro-Fitzpatrick Global Child Thrive Act amendment in the final Fiscal Year 2021 NDAA bill, coming out of the House/Senate Conference Commitee.

LASER TALK

More than half of the world's estimated 26 million refugees are children. Globally, the number of children who face a lifetime of developmental challenges caused by mainutrition exceeds 149 million-more than twice the total number of children i the United States. According to the World Food Program, COVID-19 may push an additional 10 million children into acute malnutrition

The good news is that since 1990, U.S. international aid has saved nearly 100 million children. But children need to do more The good news is that allow 2000, c.d. meetinational and a seven news, to common characteristic but characteristic to be the seven news of the seven news of

Will you join Sens. Coons (D-DE) and Blunt (R-MO), lead sponsors of S. 2715, in supporting the Global Child Thrive Act, directing the administration to integrate ECD activities into international child-focused programs? Passage would greatly midgate the impact of future panelmics and disasters on vulnerable children and their families.

COVID-19 continues to devastate families and communities everywhere. More than one million deaths have been recorded throughout the world since February 2020 due to the novel coronavirus. While needs continue to increase in the United States, we must also be deeply concerned about the impact globally. With your support, and that of the U.S. Catholic community, Catholic Relief Services (CRS) and its partners are working trielessly to respond to COVID-19 through adapted programming to address immediate and long-term needs, with a focus on supporting high risk populations like vulnerable children. CRS continues to prioritize the need for emergency funding to address COVID-19 as one way of prioritizing the reduction of long-term effects on vulnerable children and families. While we've seen partisan divides around advancing further emergency response funding for COVID-51 needs both domesically and internationally, the folsola Child Thrive Act continues to gain bipartisan support as one way to make all foreign aid funding much more effective at mitigating long-term funding much more effective at mitigating long-term.

pacts of the pandemic on vulnerable children

COVID-19, Hunger, Malnutrition and the Global Child Thrive Act: UNICEF (2020) reports that "between a quarter and a third of children under five (191 million) were stunted or wasted – too short or too thin," in 2019. According to UNICEF (2019), global malnutrition, which stunts children's growth and impairs their cognitive and physical development, is the underlying cause of 45 percent of all preventible deaths of children under five. Therefore, to address global hunger, we must address malnutrition, and one key way is to incorporate Early Childhood Development [ECD] activities into nutrition programming mainutrition, and one key way is to incorporate sany Unidhood Uevelopment (LUU) activities into nutrition programming and other interventions that support vulnerable children. By using private funding and integrating ECD interventions into programs for young children and their families, CRS and other implementers have been able to multiply positive outcomes for children in adversity. During the pandemic and in its wake, experts race concerned that vulnerable children are at greater risk of reduced access to life-saving vaccinations and primary health services, increased levels of neglect, mental o psychological ditress, stalled educational progress, child labor, separation from or loss of loved ones, less responsive caregiving and social exclusion.

The Global Child Thrive Act would direct the Administration to integrate ECD interventions into development and The Global Child Thrive Act would direct the Administration to integrate ECD interventions into development and humanitarian programs serving vulnerable children and their families without requiring additional federal funding. Investment in quality ECD programs has been shown to produce a 13 percent return per year on investment by improving health outcomes, boosting salaries, spuring the economy, and reducing a country's deficit. The integration of ECD activities into humanitarian programming will help children recover holistically from the long-term impacts of disruptions caused by displacement or COVID-19 and build their realience to future emergencies and trauma. ECD programs will support the boosting of economies in the near and distant future as vulnerable communities work to rebuild following the pandemic's economic damage. Additionally, it promotes psychosocial support and positive reinforcement, which will be crucial for young children experiencing the loss of a parent, isolation at home due to quarantines, mainutrition and magnified household economic damage. Which ne received to increase as a result of this pandemic. omic stress, which are expected to increase as a result of this pandemic

To reflect and learn more about the issue of hunger and malnutrition and how you can lead the way on hunger, check out ead the Way on Hunger video (En Español) and Labaladezy and Frankline'

TAKE ACTION: Write a personal email to your U.S. Senator

1. Go to the website of your senators and see how they want you to write them (e.g. filling out an online form or by email.

2. Introduce yourself: Share personal information to root yourself in the community (I am active in my parish, I volunteer at our local food bank, etc.) and briefly share why this issue matters to you. Share connections to your faith and to activities you're involved with in your parish or diocese to help children and families. Share if you've visited a related CRS program.

3. Thank your senator: Express gratitude for Congress' action to help address the needs of the most vulnerable people in the U.S. and around the world amidst this pandemic.

ke the ask: Ask both your U.S. Senators to sign onto a letter being initiated by Sens. Blunt and Coons, lead sponsors of S. 2715, to the decision makers on the National Defense Authorization Act (NDAA) House/Senate Conference Committee 5.2.2.3. Or the decision interest of the resolution being Robinstation act (non-process) in the final section activity of the section activity of t

al Chapter Call on October 10th.

some background to support your argument: In your own words, share why it is important to integrate Early Childhood Development activities across international child-focused programs to multiply positive outcomes for vulnerable children, especially as Word Food Day approaches (October 16). Visit the body of this Action Sheet to support your argumen

6. Repeat the 'ask', say thank you, and request a response: Leave your name, address, phone number and email address s they can get back to you with their decision.

Each month, CRS Club and Chapter members across the country perform a unified advocacy action that is timely, makes an impact on influencing Congress and supports individual and collective skill-building.

This background information supports the monthly action.
