A WATER SECURE WORLD FOR ALL by 2030

Mobilizing technical services and financial capital to improve water services for small communities in Latin America

Azure Technical Services
- Technical and engineering designs and construction for water system upgrades
- Business management training for Water Service Providers (WSP)
- Loan application and origination support for WSPs and financial institutions
- Implemented by CRS and Azure S.A. in El Salvador

Azure Source Capital
- Capital raising from U.S. and international investors for on-lending
- Operates through a local trust (FideAgua) in El Salvador
- Underwriting and management of loans to financial institutions for the water sector
